- Field work practice
- Ensured machine accuracy, monitored production quality, and followed safety procedures during operations.
- Operated CNC machines and participated in new product manufacturing processes in the refrigerator division and assembling unit.

EDUCATION

Universitas Gunadarma   September 2021 - September 2025

Bachelor's Degree in
Information Systems | GPA: 3.62

- Thesis: *Web-Based Geographic Information System for Identifying Flood-Prone Areas Using SDLC Method in East Jakarta.*
- Led a project team as group leader, responsible for coordinating members, delegating tasks, monitoring progress, and ensuring project goals were achieved.
- Conducted a phishing simulation project as part of cybersecurity learning to understand social engineering attacks and prevention strategies.

PROJECTS

WebGIS – Flood-Prone Area Mapping System   **May 2025 - July 2025**
Full-Stack Developer & System Analyst
- Built an interactive flood-risk map using PHP, Leaflet.js, and MySQL.
- Implemented Waterfall SDLC, conducted User Acceptance Testing (UAT) and Black Box Testing.
- Successfully mapped affected flood areas for the years 2024–2025.

Hole Liquid Shop   **August 2024 - August 2024**
UI / UX Design | A c a d e m i c P r o j e c t
- Applied Design Thinking from empathize to testing to understand user needs and design an effective e-commerce solution.
- Created user flow, wireframes, and high-fidelity prototypes in Figma based on user pain point analysis.
- Delivered responsive and intuitive UI through iterative usability testing for product catalog, transaction flow, and admin dashboard.

Hole Liquid Shop   **October 2023 – October 2023**
Backend Development | A c a d e m i c P r o j e c t
- Designed product display interface and price dashboard using HTML, CSS, and JavaScript.
- Developed responsive interactive features to enhance navigation and product search.
- Integrated one-click purchase via WhatsApp to improve transaction efficiency.

PT.Wijaya Makmur Mandiri   **September 2024 – November 2024**
Web Development | Internship
- Developed a web-based archiving system using HTML, CSS, JavaScript, and PHP.
- Designed responsive and user-friendly interfaces for efficient document management.
- Implemented CRUD features and organized data structure to enhance company archiving workflow.

SKILLS
Hard Skills:
- **Pemrograman & Framework:** HTML, CSS, JavaScript, PHP, Laravel, Bootstrap, Tailwind CSS
- **Database:** MySQL, PostgreSQL
- **Tools & Design:** Studio Code, Figma, Adobe Premiere Pro, Draw.io
- **Microsoft Office :** Word, Excel, PowerPoint
- **Methodologies & Modeling:** SDLC, UML, Desing Thinking, ERD, User Flow, Wireframe, Prototyping (Figma)

Soft Skills:
- Teamwork & Collaboration
- Adaptability
- Time Management
- Communication

Bahasa:
- Indonesia (Native)
- English (Menengah)

COURSES & CERTIFICATIONS
- Building Website using HTML5 – Universitas Gunadarma (16 May 2024)
- Creating Business Intelligence – Universitas Gunadarma (27 May – 14 June 2024)
- Data Preparation for Business Processes – Universitas Gunadarma (23 September – 28 September)
- Fudamental ERP – Universitas Gunadarma (22 August 2022)
- Fudamental DBMS – Universitas Gunadarma (21 February 2022)
- Oracle For Beginner – Universitas Gunadarma (20 February 2023)
- Oracle For Intermediate – Universitas Gunadarma (19 August 2024)
- SQL Server For Beginner – Universitas Gunadarma (20 February 2023)
- SQL Server For Intermediate – Universitas Gunadarma (19 February 2024)
